US PRICE LIST / 26

Studio Vervloet

Collections & price list

02
Studio Vervloet designs and manufactures door, window and cabinet hardware in solid brass, developed with independent architects and designers and finished by hand in our own atelier.

This document gathers every Studio Vervloet collection in a single price list for the United States, quoted in US dollar (\$). Prices are per piece, excluding sales tax and shipping costs.

Reading this price list

Every piece is available in the full Vervloet finish range. Prices vary by patina only, so each product carries three prices — one for each patina group. The piece itself is identical; the patina determines the price.

Patina A	Brushed, polished and sanded brass.
Patina B	The bronze range — aged, dark and smoked, plain or sanded.
Patina C	Carbon, black, oil rubbed bronze, the nickel range and Oriental Gold.
On demand	Pure gold 24K, Rose gold 24K, Aged silver and the red copper range.

Frozen and living finishes

Living finishes will naturally patinate over time, which allows each piece to develop a patina and a distinctive look. The tempo of oxidation depends on the surrounding context, climate and use.

Frozen finishes are protected with a lacquer fixing the expression. It is the most resistant way to protect the metal for years to come.

Bespoke

Thanks to our in-house atelier and skilled craftsmen, Vervloet applies a flexible approach to its products and services. Existing pieces, gathered in our extensive archive, can be adjusted to fit a specific need.

We open the doors of our atelier to architects, interior designers and artists, and put our expertise in ironmongery at their disposal. With the guidance and know-how of the Vervloet team, customised and made-to-measure pieces are produced on commission.
